

# Beispiel – IPK Topic Map Engine zur Darstellung der Zusammenhänge zwischen Themen

Grafische Darstellung von semantischen Netzen nach dem XTM Standard

Mehrsprachigkeit der Struktur

Begriffsbeschreibung

The screenshot shows the 'WN Topic Map Engine' window. On the left, there are control buttons: 'LoadXTM', 'Reload', and 'Refresh'. Below these are settings for 'Display Depth' (set to 2), 'Scope' (set to 'Deutsch' and 'English'), a 'Perform Search' field, and a 'Search' button. There is also a checkbox for 'Show Definition' and an 'Associations' section with a 'see also' option. The main area displays a semantic network with 'GPO Wissensmanagement' as the central node. It branches out into several categories: 'Führung' (with sub-nodes like 'Strategie', 'Interne Kon.', 'WI', 'Bakgrunder', 'Softwareeinführung', 'Softwareauswahl', 'Softwarekategorien'), 'IT', 'Personalmanagement' (with sub-nodes like 'Motivation', 'Lerntheorien', 'Competence', 'Mitarbeiterbefragung', 'Personalentwicklung', 'Moderationstechnik', 'Communities of Practice', 'Erfahrungswissen'), 'Controlling' (with sub-nodes like 'Intellectual Capital', 'Standards', 'ROI von WM Projek'), 'Prozessorganisation' (with sub-nodes like 'VB Prozessoptimierung', 'Rollen'), 'Prozessanalyse' (with sub-nodes like 'Analysemethoden', 'Audit', 'Ge', 'äfts', 'ressmodellierung', 'Analysekriterien'), 'Unternehmenskultur' (with sub-nodes like 'Changemanagement', 'Organisation'), and 'GPO Wissensmanagement' (with sub-nodes like 'Intellectual Capital', 'Standards', 'ROI von WM Projek'). A text box at the bottom right provides a definition for 'Personalmanagement': 'Definition: Personalmanagement behandelt alle mitarbeiterbezogenen Gestaltungsmaßnahmen zur Verwirklichung der strategischen Unternehmensziele.' A label 'Wissensdomäne' points to the network.
